3. Community Meetings

After the Covid19 pause of 2020 and 2021, in-person community meetings have resumed, including:

We also continued our successful virtual meeting series, [the QGISOpenDay](#) which have received very interesting participation from various community members. Recordings of talks are collected on the channel <https://www.youtube.com/@qgishome>.

4. PSC

The PSC met on a monthly basis throughout the year. Notes from these various meetings were recorded and shared publicly: <https://github.com/qgis/QGIS/wiki#psc-meetings>

The [PSC elections](#) as part of the 2022 AGM resulted in the following PSC and board constellation:

- Marco Bernasocchi (chair)
- Anita Graser (vice-chair)
- Andreas Neumann (treasurer)
- Alessandro Pasotti
- Jürgen Fischer
- Régis Haubourg
- Tim Sutton (Honorary member)
- Gary Sherman (Honorary member)

The PSC meetings included occasional participation from QGIS community members who had specific issues to raise. We encourage all QGIS members to make use of the opportunity to raise issues for our meeting agendas, or to join the PSC meetings if something needs to be discussed.

5. Votes and elections

At 1.1.22 The elected members consisted of 29 User Group voting members (<https://qgis.org/en/site/forusers/usergroups.html>), 29 Community voting representatives, two honorable voting members and 1 OSGEO voting member.

New users groups of 2022 are:

- Argentina

New community voting member of 2022 are:

- Adelcides Varela

Grant Programme

The [QGIS Grant Programme in 2022](#) resulted in [funding for 4 proposals](#). Like in the previous year, we did not accept proposals for the development of new features. Proposals had to focus on improving the QGIS project infrastructure and polishing existing features. The target version for all project work was QGIS 3.28. Reports from the 2022 winning proposals have been published on the QGIS.ORG blog:

6. Financial

The annual financial report for 2022 is provided as a separate PDF document, and will be published after acceptance at <https://qgis.org/en/site/getinvolved/governance/finance/index.html>

- the accounting was checked by two external auditors. See separate PDF for financial auditing report.

7. Thanks

As you can see from the summary above, 2022 was yet another incredibly busy and productive year for the QGIS project. With major advances in our organisation structure, code base, community and revenue, QGIS continues to grow from strength to strength and we look forward to maintaining the same momentum through 2023. The PSC would like to thank all of the coders, documentation writers, people supporting other users in the community, sponsors, donors, translators, bug reporters, promoters and users that have made QGIS the hugely successful project that it is today.

On behalf of the PSC: Marco Bernasocchi, Anita Graser, Alessandro Pasotti, Andreas Neumann, Jürgen Fischer, Régis Haubourg, and Tim Sutton.

Best regards,

Marco Bernasocchi
